Latte Art

Our latte art classes are filling up as fast as they're announced, here's why:

Latte Art has become more than a frilly add-on; it has become the signature of a properly constructed, delicious handcrafted coffee. A coffee that looks as good as it tastes, a coffee that keeps the customer coming back, a coffee that deserves a premium price, a coffee that fills the tip jar, a coffee that cannot be created by the large chains. The benefits do not end there, the pursuit of the perfect pour engages baristas in their craft, creating positive energy customers notice and enjoy.

The classes are free for the trade • Home Baristas \$40 per class.
